

A Halloween welcome for every child

At your front door or a trunk-or-treat event, a little patience helps every child feel welcome.

1 Allow time.

Give children time to greet you and finish what they want to say.

2 Listen naturally.

Pay attention to their message. Let them finish without guessing words or telling them to slow down.

3 Offer the same welcome.

Whether a child speaks easily, stutters or chooses a wave, greet them with the same warmth.

Share this reminder through your PTA, school newsletter or Halloween event organizer.
